Requirement

Chuhan Zhou

High prioritization

1. As a user, I want to plan for the recipe of a week so that I needn't to think about what I should eat every day.
2. As a user, I want to save each recipe so that I can choose them easily next time.

Medium prioritization

3. As a user, I want to know the statistical data of what I eat this week so that I can plan next week basic on this data.
4. As a user, I want to login the app so that another user can't know my plan.
5. As a user, I want to know the raw materials that I need for a week so that I can buy all of them at once.

Low prioritization

6. As a user, I want to share my plan so that another user can reference mine.
7. As a user, I want the app can be networked so that I can make my plan not only on my phone, but also on other electronic equipment.
